

# IGNITION COILS

## BRIGHT SPARK.

### **SMART SPARK CONTROLLER**

Spark intensity 30-70 milli-joule spark range is timed to optimize combustion and prevent flash inefficiency.

### **MICRO-MANAGER**

Smart coil microprocessor with diode input which controls essential coil functions.  
Continuous thermal compensation and coil regeneration are smart controlled to provide high intensity ignition sequence.

### **FOCUSED ON CLEAN IGNITION CYCLES**

Onboard interference filtering discards erroneous measurements from electrical noise.

It's in our DNA

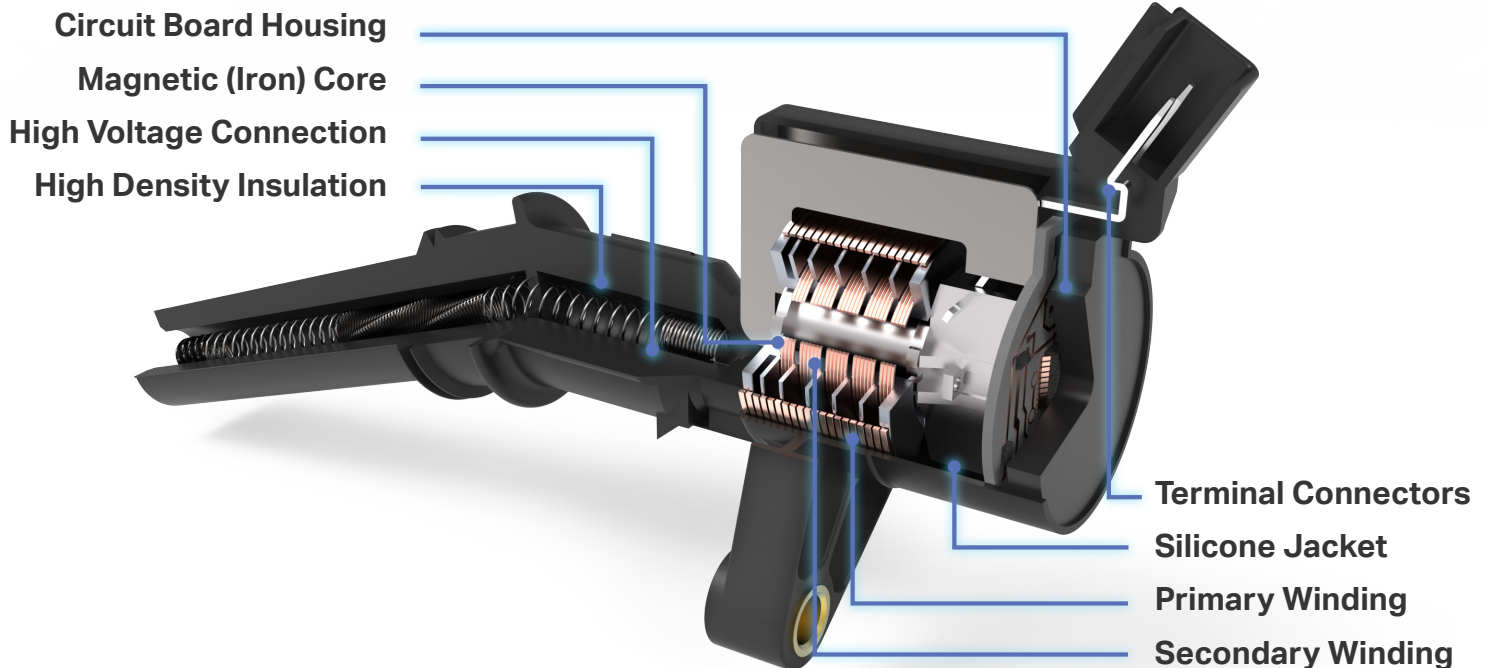

# IGNITION COILS

## READY TO FIRE.

- Engineered to match original equipment
- Tested and validated to OE standards
- Available on TEC Doc
- 24 month warranty
- Perfect fit and hassle free installation
- High density insulation protects coil from heat
- Moisture and vibration resistant seals

**426 +
