

MEDIUM DUTY

PACKS A PUNCH

HIGH OUTPUT DESIGN

Plenty of power to support parts and systems with high demands for class 4-6 trucks. High amperage output supports add-ons like wheelchair lifts, monitoring devices, air conditioning, lift gates, lift trays and more.

OEM EQUIVALENT

All parts and components are tested against OEM specifications, we test throughout the manufacturing and assembly process and provide a comprehensive report of the results with every unit.

NO CORES

All units are built with new parts & components. No cores to collect!

HIGH EFFICIENCY DESIGN

Innovative features and components reduce engine load on 12V and 24V systems.

REDUCE WARRANTY RETURNS

Innovative design and component technologies increase field life and delivers consistent high power output.

INNOVATIVE BRUSHLESS TECHNOLOGY

Improved performance and endurance adding over 4x potential lifespan.

PREMIUM ELECTRONICS

WAI electronics engineering and manufacturing provides high quality internal components for extreme durability, efficiency and reliability.
