

TRANSFER CASE MOTORS

SMOOTH TRANSITION.

100% NEW CONSTRUCTION

Built with all new parts and components to be the equivalent replacement to OE parts in performance and dimensional accuracy. All mating surfaces are precision milled to create a sealed unit that will last long and function under extreme duty conditions.

SYNERGISTIC DESIGN PLATFORM

Precision engineered parts are specified to complement the parts they directly interact with using high grade materials with properties for better performance synergy.

QUICK CONNECT

Power up with equivalent OE styled plug and wiring. Sealed for protection against corrosion, case motor and electronic switch are calibrated to exact specifications to correctly match transfer case settings.

TORQUED TO PERFECTION

Motor and gear assembly are precisely calibrated and validated in our comprehensive fit, function and performance tests.
